

# Quick Start Help

## Install

1. Decompress SuperGIS software trial downloaded from [www.supergeotek.com](http://www.supergeotek.com).
2. Click Setup.exe and follow the installation instructions.

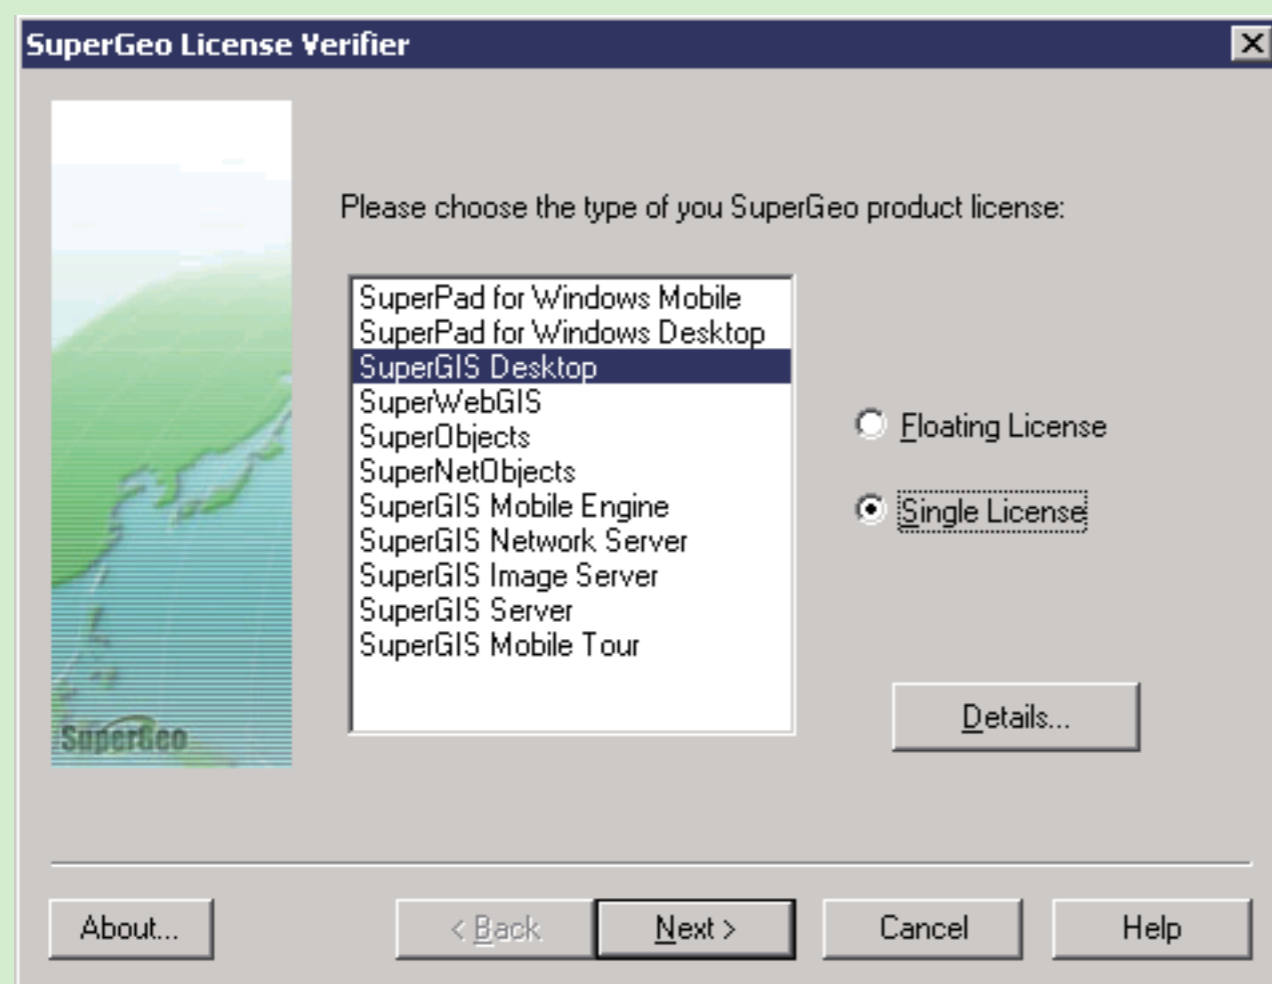

## Authorization

1. After finishing the installation, please navigate to Start > Programs > SuperGeo > License Verifier.

Note: You must connect your PC to the Internet so that License Verifier can retrieve the valid license through the Internet.

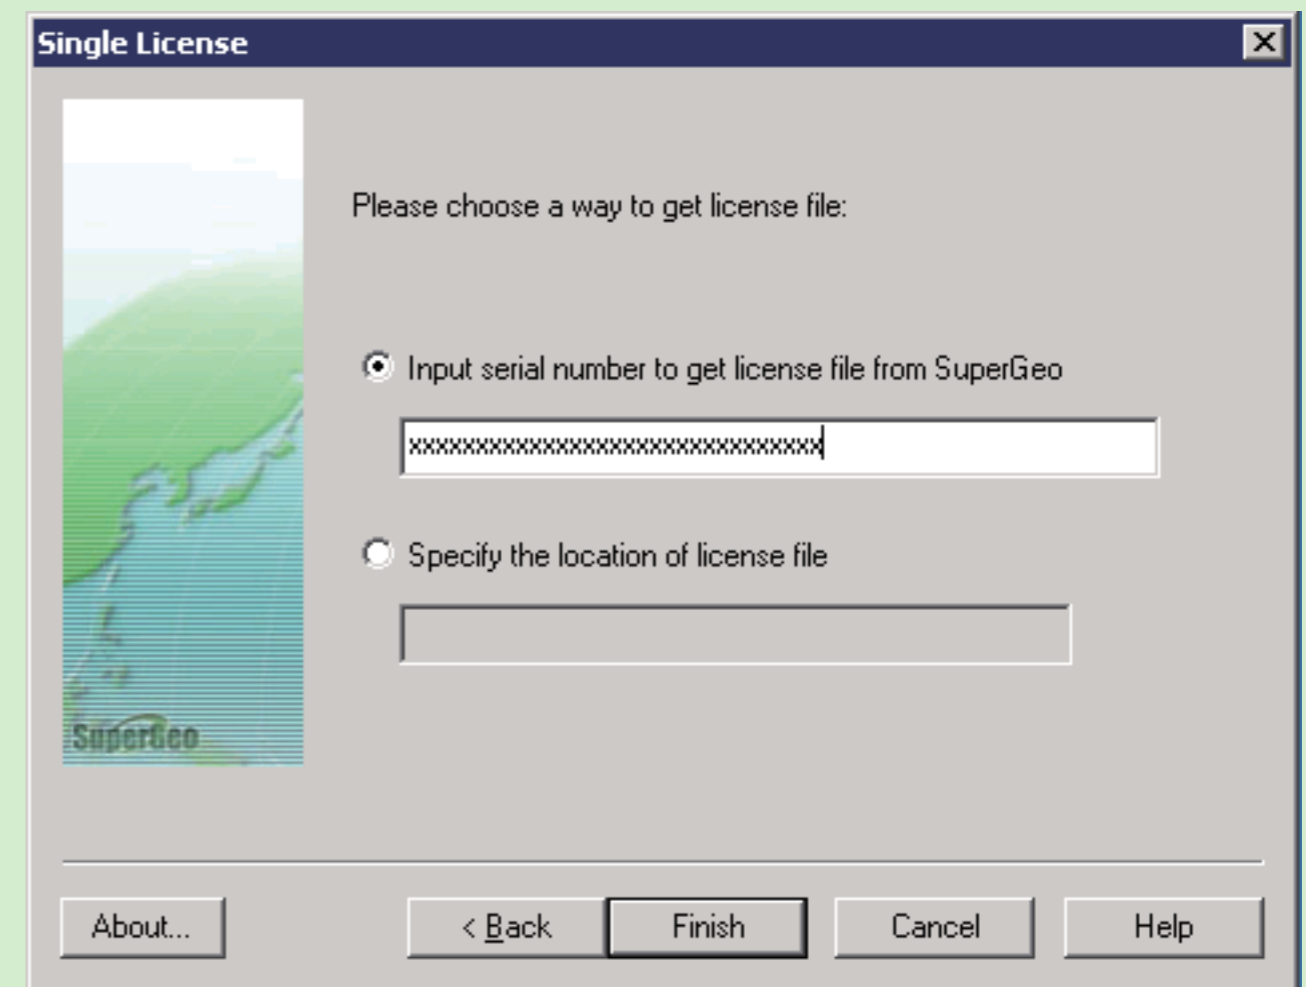

2. After opening License Verifier, choose the product you want to authorize and click Single License next to the product list.

Note: For SuperPad, you will have two license keys. If you want to get the license for desktop version, please choose "SuperPad for Windows Desktop"; on the contrary, you can choose "SuperPad for Windows Mobile" to get the license for mobile version.

Note: It's necessary to connect your mobile device to the desktop before getting the valid license for SuperPad mobile version.

3. In the Single License dialog , click "Input serial number to get license file from SuperGeo", and then input the serial number in the editbox.

4. If you get the license successfully, the "Receiving license file succeeded" window will show up.

# Authorize SuperGIS Desktop Extensions

## Install

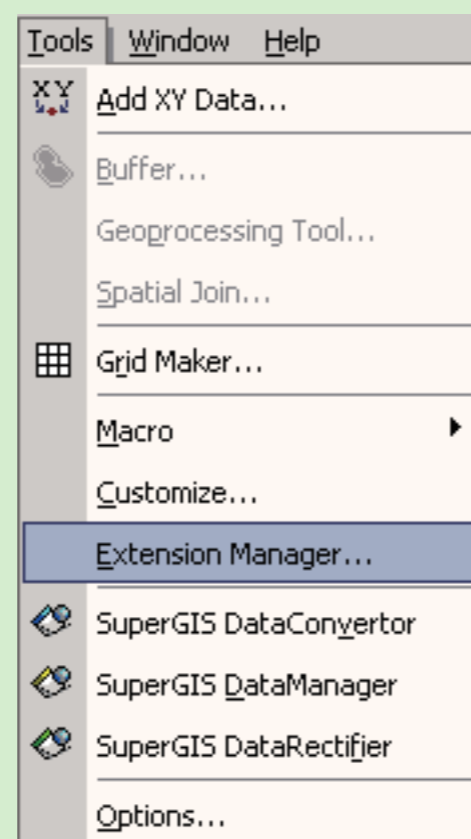

1. Decompress SuperGIS Desktop Extensions downloaded from [www.supergeotek.com](http://www.supergeotek.com).
2. Click Setup.exe and follow the installation instructions.

## Authorization and Display Extension Toolbar

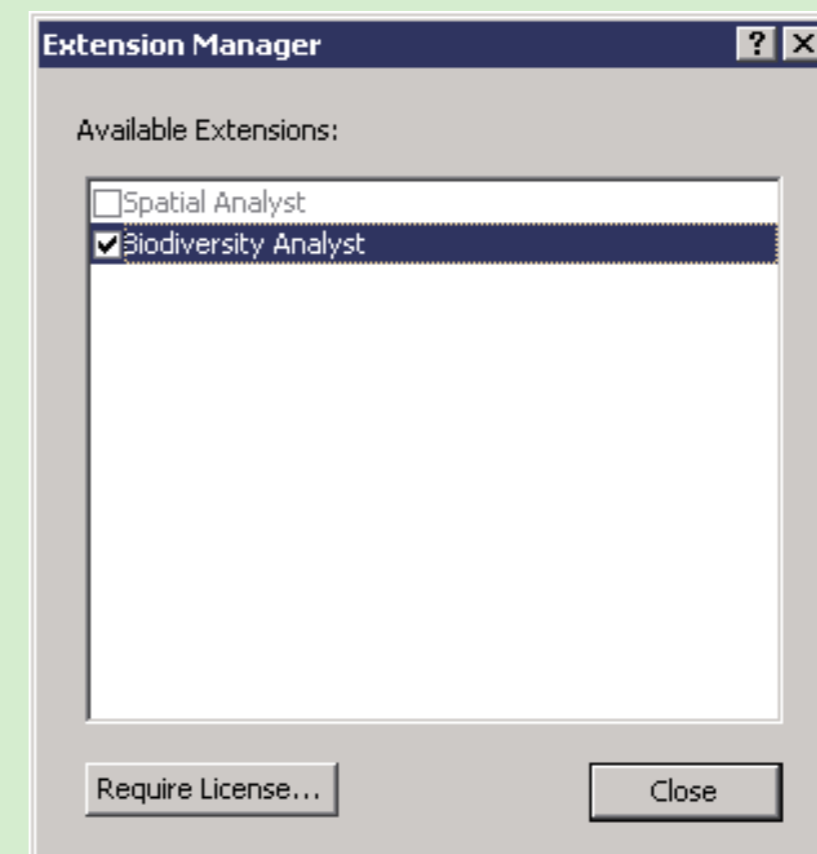

1. After finishing the installation, please navigate to Start > Programs > SuperGeo > License Verifier.

*Note: You must connect your PC to the Internet so that License Verifier can retrieve the valid license through the Internet.*

2. After opening the SuperGeo License Verifier, choose **SuperGIS Desktop** and click Single License next to the product list.
3. In the Single License dialog, click "Input serial number to get license file from SuperGeo" and then input the license key in the editbox.
4. If you get the license successfully, the "Receiving license file succeeded" window will show up.
5. Navigate to Start > Programs > SuperGeo > SuperGIS Desktop 3 > SuperGIS Desktop 3, SuperGIS Desktop is activated.
6. Click Extension Manager on Tools drop-down menu.

7. Extension Manager dialogue opens. The dialogue lists the extensions which have been installed and authorized.
8. Check the check boxes of extensions which you want to use.

9. Click Close. Right-click on the standard Toolbar to show the pop-up menu. And click the extension you want to use.
10. The extension toolbar is activated.
