6. Then, you need to restart your computer.

Microsoft Windows		
You must restar changes	t your computer	to apply these
Before restarting, sav	re any open files and cl	ose all programs.
	Restart Now	Restart Later

7. After the computer is restarted, you can start to install SuperGIS products. As the SuperGIS product is installed completely, you need to **restart** the computer again. Then, start **License Verifier** to get the license to have SuperGIS products run successfully.

After completing the installation for SuperGIS products, please go back to the control panel and <u>check</u> the checkbox for "**Use user account control (UAC) to help protect your computer**" in Windows Vista or move slider to "**Notify me only when programs try to make changes to my computer**" in Windows 7. Restart your computer again to ensure the security for your computer.
